

PROCESS TO ASSESS THE ATTAINMENT OF PROGRAM OUTCOMES (POs)

Every CO for all Courses are mapped with every PO

Direct and Indirect Assessment at Course Level

Indirect Assessment tool at Program Level

Process described in Flow chart

Final Attainment level for each CO is calculated

Conduct of -
Exit/Graduating Survey
Alumni Survey
Parent Survey
Employer/Industry Survey

The Final Attainment level for each CO is correlated with POs based on CO-PO mapping

The data obtained from each Survey is consolidated to calculate Attainment level, for each PO, based on preset conditions

Average Course level Attainment for every PO is calculated

The Attainment level for each PO by all Surveys are averaged to provide Average Program Level Attainment for each PO

A weightage of 80% is provided to Average Course level Attainment for every PO

A weightage of 20% is provided to Average Program Level Attainment for each PO

Steps to implement Action plan are taken

Normalized Attainment Level for each PO is calculated

Next year of study

Action Plan for improvement is identified

Reasons for non attainment of Targets are articulated

No

Yes

Next year of study

An advice to enhance Target Attainment for POs in next year of study is generated
